

*HELPFUL INFORMATION TO MAKE YOUR VISIT TO FOUR SPRINGS FARM
COMFORTABLE AND SAFE*

--

POLICIES for FOUR SPRINGS FARM CAMPGROUND

COVID 19 policies --- Those vaccinated are welcome to come visit. Others will need to be tested within three days of coming to the farm.

--

Directions to Four Springs Farm:

We find that if you put Four Springs Farm into your GPS you will do better than the street address. Here are the directions so you are not misled:

Take I-89 to Exit 3 (Bethel and Royalton). Turn left on Rt. 107 and go east to Rt. 14. Turn left and take Rt. 14 north approximately 3 miles. Find Post Farm Road on the right. Take it to the top (about 1 mile), to **Gee Hill Road**. Turn left. The farm is the first place on the left. **Number 776.**

--

Arrival time is after 2 p.m. (and after 3 p.m. on Saturdays) but **NO LATER THAN 9 p.m.** Please check in when you arrive.

Check in time is by noon.

Children must be accompanied and supervised by adults at all times including “tag-along-on-chores” which you can arrange with Jinny for 8 am most days.

Since this is a working farm and because voices carry easily here, we ask that campers are quiet once it gets dark. Responsible consumption of alcohol is permitted.

Fires are permitted only in the provided fireplaces. Firewood is available for \$7 an armload.

Please do not gather or cut any on your own or bring it along with you. Smoking and cooking is not permitted inside the cabins.

The picnic pavilion is an area for group rentals so please plan to use your tent or cabin area for meals. There is a picnic table and fire pit at each site.

There is a trash barrel, compost bucket and recycling crate at the wash houses. Please do NOT put food waste in the trash or trash in with the compost.

We’re sorry, but since this is a farm, pets are not permitted.

Thank you.

--

THINGS TO BRING WITH YOU TO THE FARM

Linens / sleeping bags for the cabins and wash house - We have cold nights in these New England mountains so you are advised to come prepared.

Boots are recommended. There is no pavement on the farm. Some areas are often wet or muddy.

Tall grass and woods areas are wet in the mornings from dew.

Bug Protection -This is just the right habitat so we actually have **VERY FEW MOSQUITOES** or black flies and a nice breeze here most of the time sends those away, but you may find a few if you are here in the spring.

Flashlights, lanterns and /or head lamps are recommended for site or cabin use and walking around the farm at night. There are no lights around the farm. All camping & cooking gear for preparing meals over the camp fire are your responsibility.

Four Springs Farm water is excellent! It is so delicious you might want to fill your jug to take with you when you leave.
